EDUCATION

Carleton College, Northfield, MN

June 2026

Bachelor of Arts in Computer Science, Minor in Mathematics, GPA: 3.16/4.00

- Posse Foundation Full-Tuition Leadership Scholarship (2022 – 2026)

Yes Prep Brays Oaks High School, Houston, TX

June 2022

EXPERIENCE

Assistant Data Scientist

September 2024 – Present

DataSquad, **Carleton College**, Academic Technology, Northfield, MN

- Assisted in analyzing and interpreting school operations data using tools like Excel to identify trends and support informed decision-making.
- Generated 1–2 detailed reports per term, ensuring clarity and accuracy in data presentation to aid administrative planning and evaluation.
- Maintained data integrity by regularly cleaning and verifying datasets and collaborating with staff to streamline processes and enhance the quality of strategic discussions.

Information Security Assistant

January 2024 – Present

Carleton College, Information Technology Services, Northfield, MN

- Monitored and analyzed security events using Splunk and Nessus, helping to identify potential cyber threats and contributing to timely incident response and improved threat visibility.
- Gained hands-on experience with honeypots and Palo Alto firewalls, assisting in testing and improving campus network defenses while learning core security infrastructure tools.
- Created dashboards and visualizations in Splunk to present key security metrics and supported campus-wide cybersecurity awareness initiatives by sharing insights and promoting best practices.

Research Intern

June – August 2024

Texas Advance Computing Center, Austin, Tx

- Investigated decision-making models that integrate human preferences into AI systems, contributing to researching improving fairness and interpretability in automated outcomes.
- Applied game theory framework to model and analyze strategic interactions between AI agents, exploring how equilibrium behavior influences system performance
- Designed and executed simulations to evaluate AI strategies in competitive environments, collecting and visualizing performance data to identify optimal decision policies

ACTIVITIES

Member, TRIO Student Support Services

2025 – Present

Member, Focusing on Cultivating Scientists

2022 – Present

Member, Carleton Office of Intercultural Life

2022 – Present

TECHNICAL SKILLS

Python • Latex • Linux • Splunk • Nessus • Java • C/C++ • Palo Alto
